Secret Seduction Tips for the Older Man

W. Nanner Flint

Getting back into dating after a long absence need not be difficult. In this book, W. Nanner Flint shares his hard learned secrets. Learn the best pick-up line, the magic of the puppy principle and how to almost instantly stop being a stranger. Learn how to put the fear of rejection aside. Focusing on the needs of the older man, Flint shares these and many other valuable secrets.

Why wait? Fix your dating life today!

Who is W. Nanner Flint?

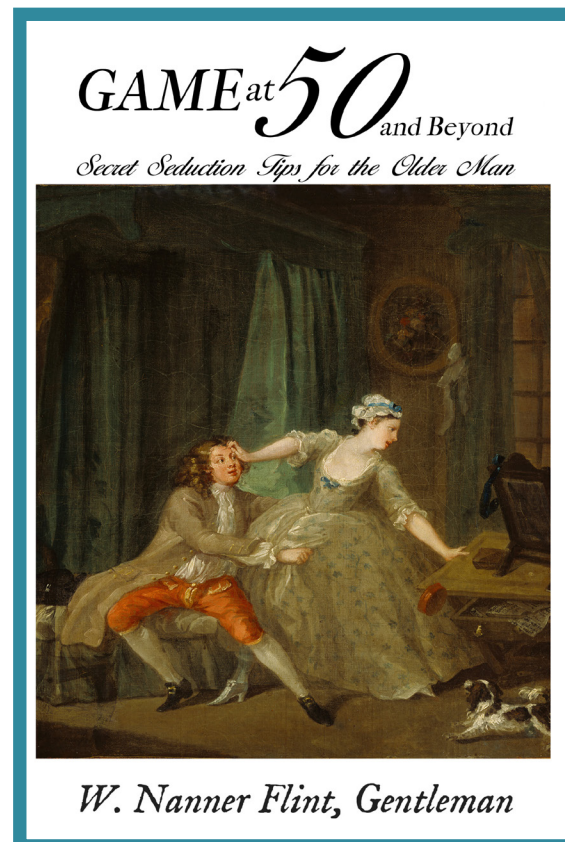

1980. The Cold War is still being fought. The Sandinistas have taken Managua and the contra war is getting underway. Two CIA clandestine operatives travel to Chicago. They meet two men at the Hilton on Michigan Avenue. One of the men, Edward Lee Howard, became a Soviet defector. The other, W. Nanner Flint, would go to Panama.

A former Russian-language librarian at the University of Chicago, Flint worked for Mexicana Airlines before entering government service. President Reagan reminds the American people how close Texas is to Nicaragua. Eventually Flint would accept an in pectore commission in the Panamanian Defense Forces while fighting the drug war in Miami, Florida. Later, while most men were thinking of slowing down, at the age of 54 Flint went to Iraq. Flint married and divorced, then married and divorced again. Despite all these experiences, when he returned

to the dating pool after a long absence, he could barely float. Women did not talk to him. he was too shy to say anything himself. He didn't know what to do.

This book tells the story of his remarkable transformation; the result of his research into the field of adult dating.

The Grammar of Money

Felouz

I don't know if God exists, but money does. Argue over the existence of God but no one argues over the existence of money.

Debate the existence of God, but no one debates the existence of money.

There may be many gods but all worship money.

Nothing is as important as money. In this life, nothing is as important as money.

What comes before or what comes after is a subject of debate. No one debates the existence of money. Money simply is. If you try to define it, the definition will slip through your fingers. Everyone knows what is and what is not money. Money is not an item of value, money is value itself.

Man's god is money, the god of the here and now; of desire, of gratification, of fulfillment. But though money study money, the truth of money and its secret rules are just beyond their grasp. Money is evil but doesn't care what you think. Money is you over the other guy or the other guy over you. Money is helping yourself, money is helping others with the goal of helping yourself.

To understand money, you must understand its rules. Like any language, money has its own grammar. No one will understand if you try to speak without grammar. If you do not understand the grammar of money someone will take your money from you. Take his away first, if you can.

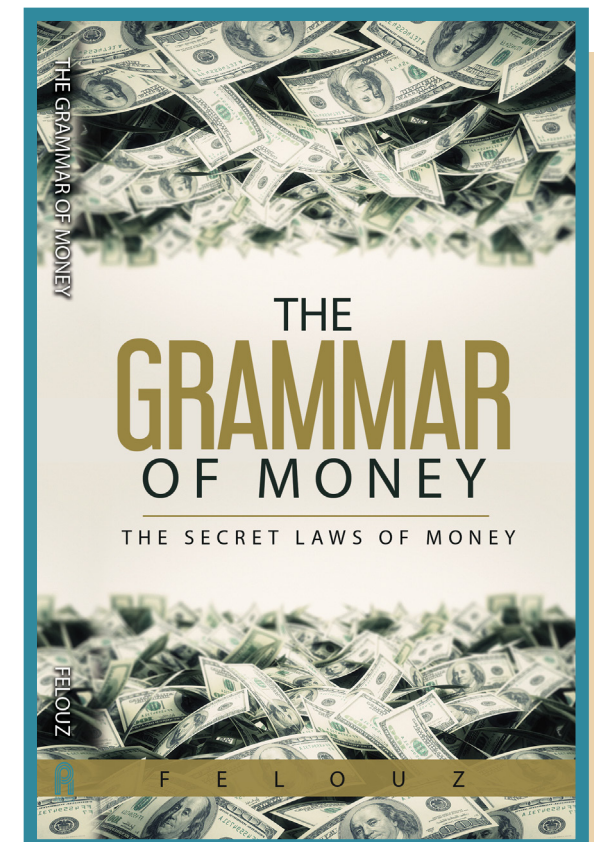

Money has no shame, Do not let others take away your money, but try to take

away theirs first.

When life looks like easy street, there is danger at your door.

How to Land a Legal Job Overseas

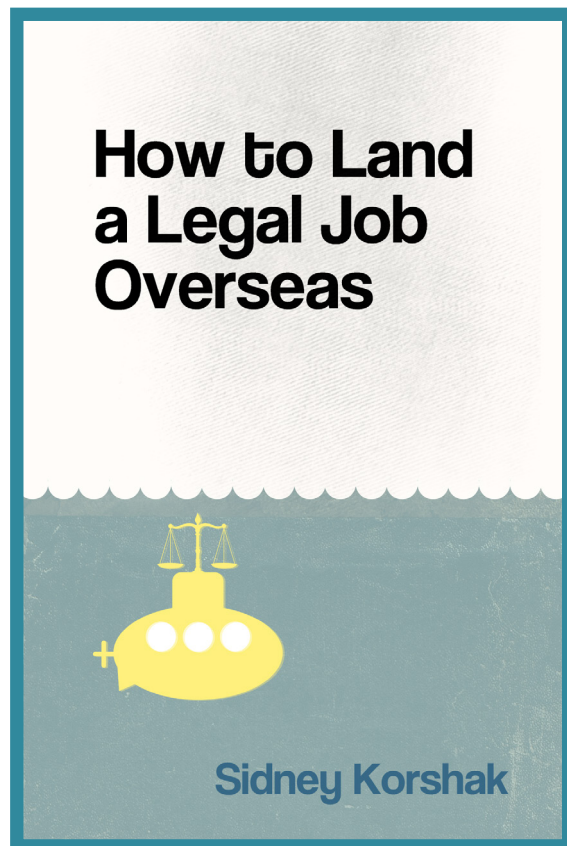

Sidney Korshak

The shrinkage of the American job market for lawyers has caused many to wonder if there is an overseas alternative. Sidney Korshak takes a look at the overseas market and gives a favorable answer. From Norwood Allman to Baker & McKenzie, Korshak looks at the history of American firms abroad and concludes that opportunities remain for both new law graduates and experienced lawyers overseas.

This short volume contains a director of recruiters and addresss issues such as foreign licensing and the long-distance job search. Though globalization has touched every aspect of business today, the law works behind a domestic wall. Destroying misconceptions, Korshak breaks down that wall and shares his experiences of overseas practice.

Sidney Korshak is an American lawyer who has spent most of his legal career overseas.

Law and Rockets An American Lawyer in Iraq

Michael O’Kane

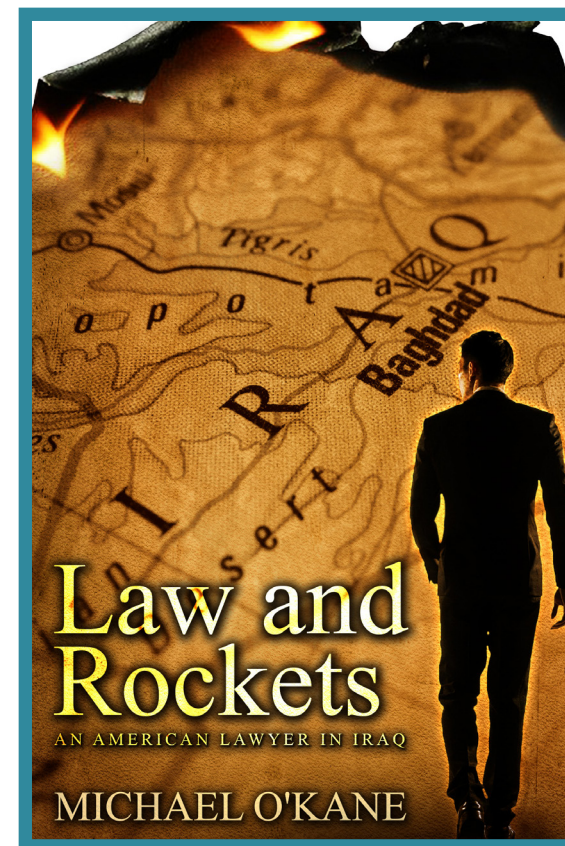

An American lawyer travels to Baghdad to run the office of a German law firm. What could possibly go wrong? Practicing law in a war zone isn’t so bad, if you can overlook the nightly mortar attacks.

Ten thousand tons of chicken are somehow stolen; a transgender government contractor finds sympathetic ears amongst Iran’s ayatollahs and the office phone keeps shutting off whenever a military convoy goes by. Meanwhile there’s a law practice to organize and clients to keep happy.

Sometimes it seems that conflicts with the home office are more stressful than the fear that a rocket exploding nearby will find its target.

Michael O’Kane is a former Chicago attorney (Loyola Law) and the last attorney admitted to practice in the Panama Canal Zone. Since then he has worked in Mia- mi, New Jersey, Saudi Arabia, Bahrain, Bolivia. And Iraq.

Doing Business in Myanmar

Michael O’Kane

In Myanmar, each new day brings significant change. Following fifty years as a pariah state, Myanmar is rapidly moving to once again take its place among world nations. Myanmar has embarked on an aggressive modernization program that promises to bring real change to the country. The pace of change is breathtaking: construction projects are planned and awarded at a ferocious clip. The era of sanctions is for the most part over and foreign investment is actively courted.

Learn about:

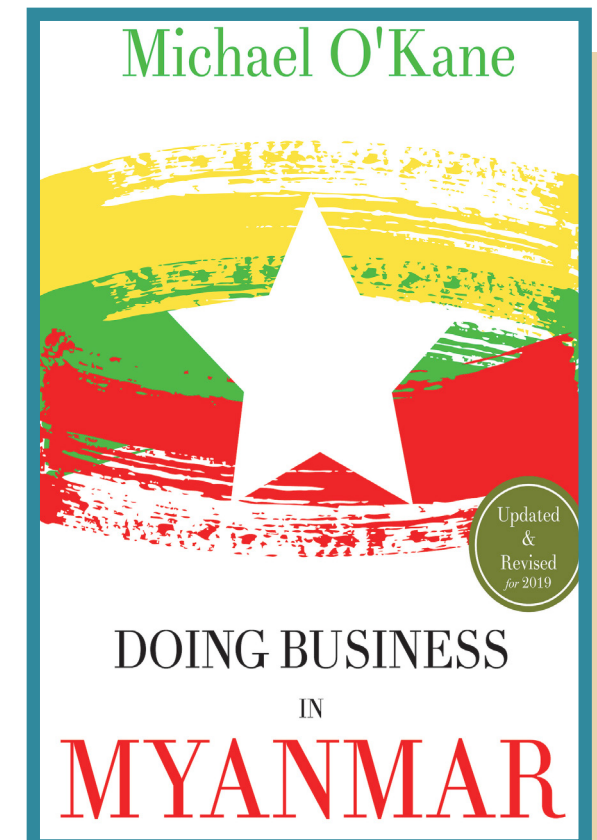

- Commencing a Business
 - Legal System
 - Taxation
 - Employment Law
 - Foreign Investment Law
 - Land Law
 - Capital Markets
- and more.

Learn about the opportunities in the new Myanmar. This handy volume is an indispensable guide to Myanmar’s business and legal climate.

Saudi Arabia Labor Law Outline

Michael O’Kane

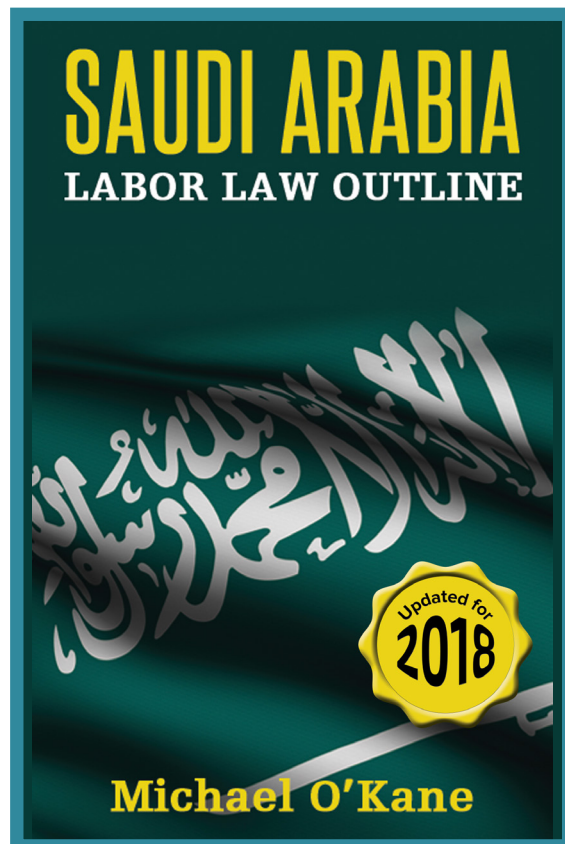

Completely updated for 2018, this comprehensive handbook integrates the 2016 Implementing Regulations and the 2015 revisions to the Labor Law itself. An essential reference for Saudi labor law, this helpful text is a convenient reference for companies that employ workers in the Kingdom.

Fully indexed, this is the only text that annotates each article of the labor law and the implementing regulations with a comprehensive index.

No other book like it is available on the market. Human Resource officers use it as a handy desk reference; employees use it to determine their rights under the law.

This best-selling handbook on Saudi Labor Law is full of critical information for employers and employees. No business should be without it.

Saudi Real Estate Law and Practice

Michael O’Kane

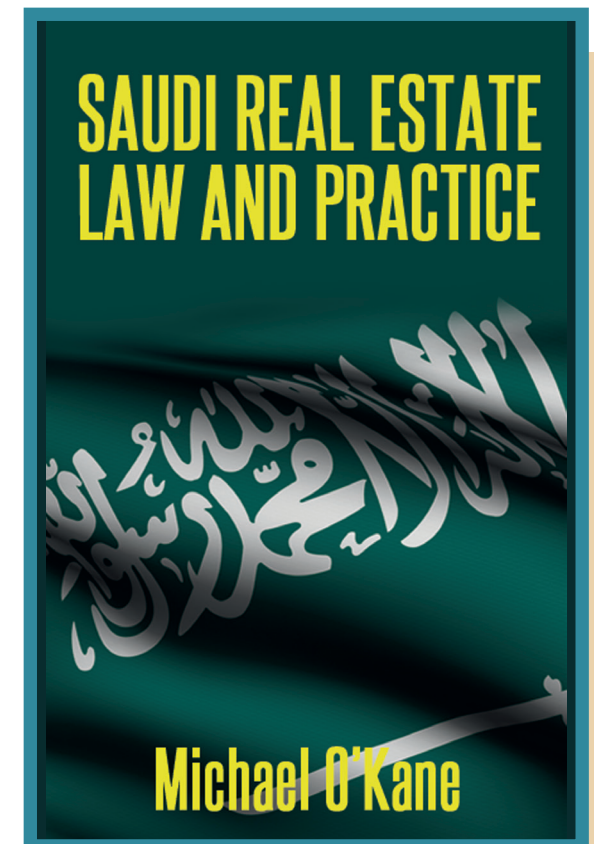

The 2013 introduction of nine new real estate laws revolutionized the traditional real estate market in Saudi Arabia. Yet while seeking foreign investment to promote the real estate sector, most of these laws have not been translated. Nor is it easy to get answers, even from large law firms operating in the Kingdom, to simple questions like, “how you transfer a property?”

This book contains a historical overview, an analysis of Saudi Arabia’s new mortgage ecosystem, a summary of existing real estate laws and helpful practice pointers. The new laws are of course, translated and where necessary, annotated.

Included also is the full, annotated text of the Enforcement Law, a groundbreaking change to the Saudi legal system designed to make debt collection routine. Companies owed money in and from Saudi Arabia will find these chapters indispensable.

There is no similar book on the market today. Every real estate investor, practitioner and loan officer active in the Saudi market should keep a copy close by.

Don't Forget to Tape the Toilets

The Missing Employee Orientation Manual for Saudi Arabia and Bahrain

OK - if you buy ONE book about Saudi Arabia before you go, make sure it's this one!!

Don't Forget to Tape the Toilets: The Missing Employee Orientation Manual for Saudi Arabia and Bahrain was written for those going to work or thinking of going to work in Saudi Arabia.

One reviewer wrote, "OK - if you buy ONE book about Saudi Arabia before you go, make sure it's this one!! The author is American, and writes this employee manual primarily for workers of a company called Yorks, but makes frequent references to Aramco, and has a mine of information about general life that would be useful for anyone.

I thought the title was strange - it is, until you read it and find out why you need to do this...! This is one of the many reasons why you should seriously read this book before you go. Out of all the books on Saudi for prospective workers or tourists I've read, this is the one that has the most down-to-earth, gritty detail that you don't get anywhere else. It's a bargain, and a goldmine of information. I can't recommend it highly enough."

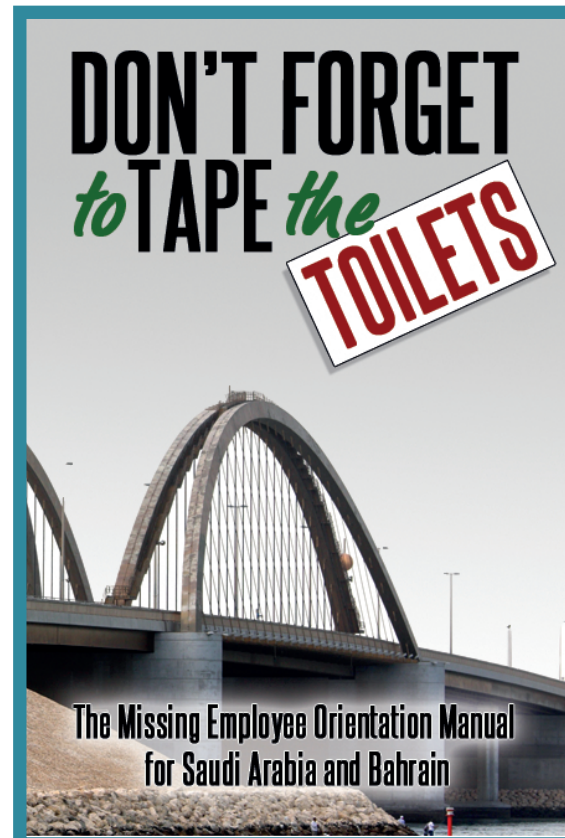

— Amazon reviews.

Time Out: Bahrain says that this humorous, tongue-in-cheek book is full of

"interesting information."

The anonymous author is a long-term resident of Saudi Arabia and Bahrain.

My Life in the Medellin Cartel

Carlos Stier | Edited by Michael O'Kane

Carlos Stier was a successful smuggler for the Medellin Cartel. Along the way he dealt with corrupt narco-lawyers and government officials.

But after local cops accused him of murder he became a DEA informant. Stier targeted his old connections, not knowing that one of them was a Cuban spy for the FBI.

This remarkable document was prepared for the spy's trial in Miami featuring people like Carlos Lehder, drug trafficker turned politician, Nigel Bowe, the bag-man who helped the Cartel set up in the Bahamas and Raul Castro, who received a gift from Lehder to permit flights over Cuba.

Triptych

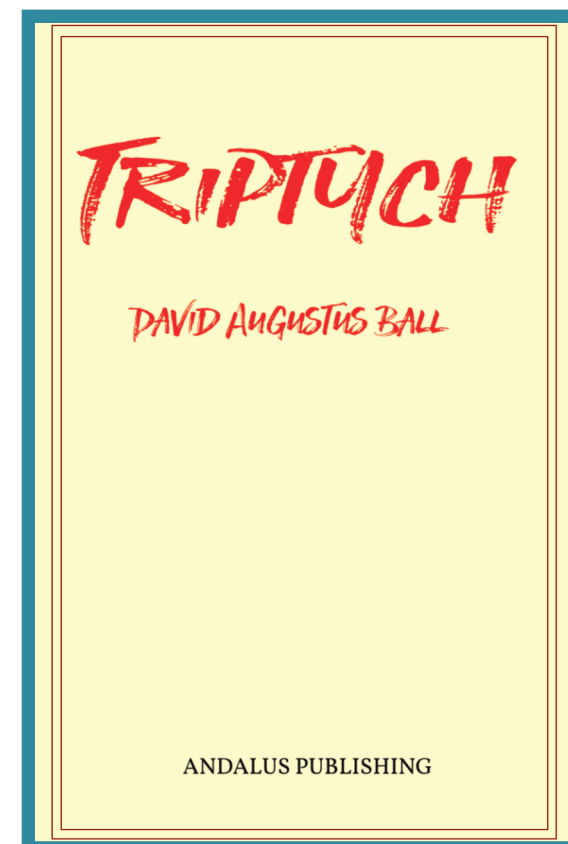

David Augustus Ball

Once named New Orleans' "Lawyer of the Year" for his work on a gruesome murder case, David Augustus Ball rips the scab off the system and shows the strange underpinnings of an astonishing court decision based on an ancient and almost forgotten religion.

Triptych is the story of a lawyer who risked everything to defend a man who could not be defended and a religion whose commands cannot be ignored. Was it just another cold-blooded murder in the Crescent City...or an arcane religious ritual protected by the Constitution?

In a book that blends sacred texts, courtroom testimony and told hard facts, *Triptych* asks, does religious freedom include freedom to kill?
